Groovetown was absolutely amazing! They were one of the best bands to dance to that I've ever seen. They could not have been better. Everyone was raving about them. They totally made the party ... It was a total success. Thank you very much for recommending GrooveTown. You were so right about them being similar to Right On. They may have even been better than that band. I liked Groovetown so much that I would absolutely hire them again, and I'd recommend them to anyone!! Please let them know how great we all thought they were ...

Thanks again, Anne Berry
